

**May 11th & 12th meeting and work day of the
Friends of Lone Pine Cemetery - 2012**

1. We had two new guests at our meeting, Alan Arnold from Tekoa and Jerry Wagner from Farmington.
2. The placement of the Historic Marker and the new Pine tree was discussed.
3. The Marker was placed at the northwest side of the parking lot. The Pine tree will be placed 3 or 4 feet behind the marker at a later date.
4. It was decided that Jim will order 25 metal grave markers from W. F. Norman Corporation.
5. The chain link fence will be on hold until more money comes in.
6. It was decided to wait one year to see if the fire damaged trees will recover or be removed.
7. The fire damaged Apple tree and all wire, brush and lilacs were removed from the East and North side of the cemetery.
8. Two crews of chain saw and brush pilers cleaned the area from the parking lot to the north boundary line of all lilacs.
9. It was estimated that one third of the cemetery is now clear of all Lilacs and brush
10. Rod mowed the south and west boarders of the cemetery as well as the sides of the north-south path. Would have done more but one of his mower tires was punctured.
