LONE PINE CEMETERY

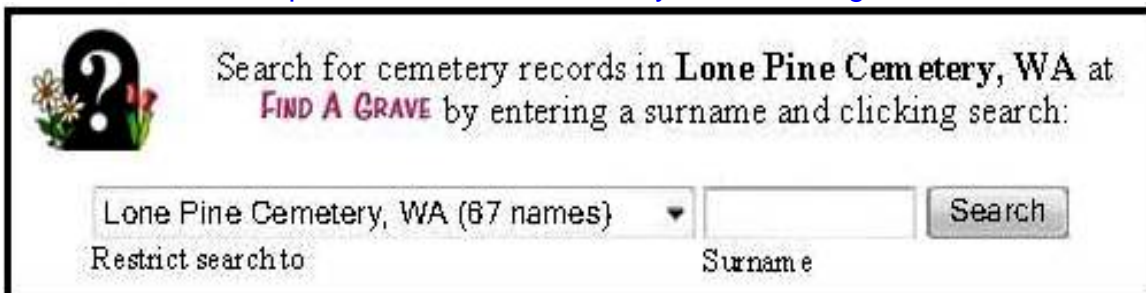

Lone Pine Cemetery is located about 3 1/2 miles from Tekoa on a road between the A. L. Wolf farm and the William Sieveke farm . According to a Plat Map of 1910, the cemetery was in the north-west corner of the north-west quarter of Section 21, Township 20 north, Range 45 East Willamette Meridian . The land then was in the name of F. F. Mauer, it is now owned by A. L. Wolf .

Names have been obtained from all the existing markers that are legible . As is the case in so many of the early cemeteries the largest number of graves are those of small children, the same is true in Lone Pine. The earliest marker noted in Lone Pine Cemetery marks the graves of the twin sons (Anthony and Hughy) of a Mr. and Mrs. Kizer. They were born October 2, 1882, one passed away January 1, 1883 and the other one January 7, 1883. The names of many of the pioneers that are mentioned in the family histories can be found on markers in this cemetery.

This cemetery is no longer used for interments.

This information was obtained with the assistance of **Monica Peters** of the Whitman County Genealogical Society.

"Settlers"

The highest places on the rolls of heroism must be shared by the un-Sung men and women known by the lack-luster name of "settlers". They are the ones who staked everything they had against the threat of hunger, illness and violence and by stark courage fashioned the foundations of the early west. Their names were not emblazoned on any plaques of honor, and most of them have been forgotten so far as individual recognition is concerned, but their impact on the rise of civilization was profound.
